SUMMARY

Computer science engineer with experience in fullstack solutions on projects that involve web, mobile, servers and process automation technologies. I am a self-confident and like to expose ideas while learning from others without fear of public speaking or defending postures, competent in fields such as speech, leadership and interpersonal ties. Despite all this, I am aware of not having world's knowledge, but as engineer, I believe not knowing something doesn't mean it can't be learned. My favorite hobbies are video games, gym, watching series and learning new technologies and programming methods.

EXPERIENCE

Computer Science Engineer

January 2024 - Present

Xelhua

- Resolved backend problems related to elasticity in distributed systems to recover down containers in Docker
- Successfully contributed in project development bringing up automatization into failure detection with Python
- Efficiency in use of remote connections to administrate and manipulate high performance Linux based servers in order to process big volumes of data

Fullstack Developer

January 2023 - October 2023

Calcula UAT

- Developed, designed and applied solutions on different operative systems to create an interactive platform between the dedicated users
- Implemented a mobile application with Flutter as main tool to reach Android and iOS to interact with the system
- Deployed a website using Next.js and Google Cloud Services with Firebase to create real time In-Cloud solutions
- Applied data persistency techniques to keep the platform operative even with no internet services available

EDUCATION

Computer Science Engineer

Universidad Autónoma de Tamaulipas (UAT)

Computer Science Technician

Colegio Nacional de Educación Profesional Técnica (CONALEP)

CERTIFICATES

EF SET English Certificate

C2 (80/100) Proficient

SKILLS

| | | |

HONORS AND AWARDS

- 🏆 Third Place | State's Final | English in My School (2019) by Conalep
- 🏆 Contestant | Science and Engineering Fair (FECIT, 2023) by COTACYT
- 🏆 Contestant | TAMCODER programming contest (2023) by CINVESTAV
- 🏆 Contestant | TAMCODER programming contest (2022) by CINVESTAV
- 🏆 Contestant | 17th ANIEI NATIONAL PROGRAMMING COMPETITION (2022)
- 🏆 Project's English translator | Entrepreneurs Project (2018) by Conalep
